

MESSAGE ABOUT
NATIONS

MESSAGE ABOUT NATIONS

Holy, Holy, Holy is the Name of God, the Lord Almighty, in all of heaven and all of earth! [See Isa 6:3.] His Holy Word and the expressions of His Love are poured forth into the traditions and into the hearts of those who are attuned to Him in all nations and all peoples of the earth. Those who will hearken will hear His voice, and with the gift of hearing and the desiring comes the great responsibility to give that message, to give all that the Father has offered, unto everyone who will receive it into his heart. As has been stated before, “God is Love. Dwell in Love, and you dwell in God, and God in you” [see I John 4:16]. There is no nation on earth whose destiny cannot be transformed by the earnest prayers of just a few people of that nation. Take upon you the responsibility for yourselves, for your nation, and for the whole world. Look to the Father; look to His Light. Invite Him to enter into your hearts. Allow yourselves to feel, to know, His Love, to give utterance to that which you experience. And allow yourselves to be vessels that are empty and pure through which inspiration can be poured to all your brothers. All that the Father ever would offer is waiting, waiting for the vessels through which it can be poured. Look about you and see the need to attune to Him, to His Love and His Light. Take upon you the responsibility to be among those who offer themselves to be empty and ready so that expressions of the Father’s Love and utterances from Him may be poured forth through you to inspire, to uplift, to heal your brothers of their many tribulations. The difficulties and tribulations are drawn to them by their own thoughts—their attitudes and lack of expressions of

love in failing to see the Spirit of the Father in their brothers. Call upon the Name of the Father! Call upon the Name of your Master, for He is ever ready to come to you! And be aware that the time is right—there is a time of harvest. Do not delay, for in delaying you prolong the suffering of your brothers—you allow it to continue.

A question was asked as to how the vessel might be delaying.

There are many things in the mundane life that distract. Many things are requested or expected by other brothers that are not of utmost importance. That which is put before you each day, do it as your Master would do it. Seek His Presence; ask that He be in you, with you, in all that you do. Do not close your mind to the possibility of doing anything He would ask of you. Do not consider that you might not be able. It is not your job to provide what is needed so that you can do anything that is asked of you. So, don't even consider, "Would I, or can I, go here or there and do this or that?" The only appropriate attitude is: "Here am I, Lord, send me. I am ready and eager for the opportunity. I am awaiting with great joy the inflowing of Your Spirit. It is the fulfillment of my life to be Your vessel, empty and ready and having nothing to hinder it" [see Isa 6:8].

The Heavenly Father was asked whether there is a particular form that the ministry to (a certain nation) should take?

Exemplify My Love and give utterance to That. Speak gently and always have the utmost respect for each brother, realizing that the respect you are giving is to Me, My Spirit that is within your brothers. Speak of Love, as well as allow yourself to be the vessel through which various healing energies may

flow. Speak not of the past, shortcomings of the past. Think not upon transgressions, for I remember them not [see Jer 31:34 and Heb 8:12]. The most direct way to enter into communion with the Father is to begin now. Do not look back. Remember Lot's wife—she became a pillar of salt, crystallized [see Gen 19:26]. Do not remember the past; do not waste energy and time in regret. Just always look to Me. Ask that My Light and Love flow through you into all parts of the world so that the whole world may be transformed, and never consider that this is not possible. It is possible. It depends on you and begins with you, in your heart. Through you others are inspired. Go forth always ready and willing!

A question was asked about healing the physical ills of the body.

*I take care of all things. When it is needed, I lead you to those who can assist you to be an even more open and clear vessel. There are times when you may learn things that may be helpful in relieving your brothers of their sufferings, but the most important thing is always, “Here am I, Lord, send me; help me that I may always be pure and empty,” and surely, **surely**, I will do it all. All you do is allow yourself to be the vessel.*

Is there any point of emphasis that would be especially helpful to the people of that nation, given where they are at this time in their collective spirituality?

There is a great appreciation of higher cultural forms, particularly artistic, among this beloved people, and artistic forms inspire—they lift you up and make it easier to look toward Me. They should, however, always be used for that purpose. They are not an end in themselves, but they are

inspired to allow you to more easily look up to Me, to desire to rush into My arms, and to enjoy and know an embrace of My Love. There have been many great brothers in this nation who have inspired others in all parts of the earth, and there are still those there, even this day, who look to Me and point the way to other brothers.

Is the vessel's calling with music a way to help awaken people?

There is a sensitivity to the types of music that are most beneficial in attuning the heart and soul to the Love of God, and a sensitivity to the kinds of music that drag the soul down and hinder it in its desire to take flight. In being sensitive to these things, he can make recommendations to the benefit of others.

Are there particular people of this nation through whom this calling may best be carried out, or the service may best be performed?

There are those in various parts who speak to Me, who ask of Me, and who are attuned to My Love. There is a need to speak of this more, to share the experiences, because in sharing personal experiences other brothers are inspired, as well as encouraged to believe that they themselves can have the same experience.

Is there any particular preparation that would be helpful so that the vessel is ready?

All things are prepared. The most important thing is to be willing—and to know that your sense of security and belonging is with Me and not in having a home in a particular place

or acquaintances about you. I am your Father; you speak to Me wherever you are. You are at home anywhere I may send you, for I am there with you. Your greatest delight, your greatest fulfillment, will be in allowing Me through you to touch all those who would respond to a touch, so that their gaze may be turned toward Me and away from the meaningless, mundane things of life; for just to see one soul turn and light up will bring great joy to you, and just imagine—if it were a hundred, or a thousand, souls! This is really the only motivating factor you can respond to. There is within you no ambition for accomplishing any mundane things. Allow yourself to be Me; allow Me to be you; and there is no limit to what can be done.

Have your intention set each day to be aligned with My Will. Allow My Will. Judge not what comes. Have great joy in what transpires because your intent has been that it be My Will. For in aligning yourself with My Will, you have Life, you have Light, you have Love, you have Joy. And now that you know nothing keeps you from coming before Me, into My Presence, there is nothing else to bother you or worry you or for you to be concerned about. You know this. Now that you realize that through desire you can come before Me, you feel secure, you feel loved, and you also realize how important it is for all your brothers to feel the same way. Their suffering comes from not knowing this. Speak to them of these things. Touch them so that they feel and know that I touch them through you. This is your joy! This is your life!

The salvation of the world is in seeking My Presence, knowing My Love, and expressing It; and this can come forth in any nation. It comes by the people of the nation desiring it, asking for it. It is not possible that you could ask to know Me,

to experience My Love, and not have it happen! The people of this nation, with the desire to do so, can be a great light unto the world. With all the talents and all the energy of this people, if it is directed toward Me and back again to the brothers of the world, it can be the turning point in the path and direction of the earth; for in returning, Jesus, the Christ, returns in the hearts of the people of the earth. He can return in any nation. He can return in the people of this nation. Very often those who have suffered much become those who give much, very much, to the world, because through suffering they have learned to identify with others who are suffering and, therefore, desire to be instrumental in bringing relief to their brothers. I call to each one every day. If you listen, you will hear My call. If you desire to feel My Presence, you will feel it. I call you to a great work.

Is there any daily, practical advice that would be helpful to the vessel at this time?

Set your intention every day to remember always to look to Me, to be a vessel through which the brothers around you receive blessings from Me. And never doubt that your prayer has been heard or that it is answered, for surely a Father listens to His children who call to Him in love!
